data science

About Me

I am Nikhil Panda a student, pursuing my degree in Computer Engineering. Concentrated and oriented into Web designing, creating visual elements which interacts with the user, and designing an app to users requirements. Also studying honors in data science which will help in many other fields .

Projects Performed

Online Voting App

It is an App which allows the client/Users to vote for their leader or an organization .

By this app time and money is saved as no one has to spend their precious time as they wait in a long queue to vote. money is saved as no paper work and no voting machines are requierd.

Online Law System

It is a website which allows people to search laws, lawyers. It also helps clients/people to hire a lawyer online. They can also communicate with the video call feature.

Portfolio

A website which tells more about myself, and my work
